A New Standard of Oral Care for the NICU

Plak-Vac Petite Oral Hygiene Kits are tailor-made to support the oral hygiene needs of both intubated and non-intubated babies. Our Petite kits are configured to include choices for swabbing, cleaning, moisturizing, and suctioning the oral cavity. Organizing all components at the point-of-care enhances protocol compliance as well as adherence to infection control policies.

Daily Organized Kits

Daily Organized Kits are tailor-built to your institutional protocol, including treatment times and protocol based labeling, and offer the maximum in protocol compliance and integrated care.
